Fr. P.D. Johny SDB, an accomplished educationist with all his expertise, experience and intellectual calibre animated the teachers with video clippings, pictures and group discussions. He dealt with many topics which are very much connected to school education, class room management. Coming together of different school teachers make school administration and teaching learning experiences much better and easier. These two days of training programme, has helped the teachers a lot. They have learned a lot from the sessions taken by Fr. P.D. Johny and from the group discussion. Watching different video clippings related to education and classroom management has infact motivated the teachers to re-commit themselves into active teaching learning culture. Their outlook towards students and parents has also changed and they want to give their best for the welfare of the students. The two days animation programme came to an end with vote of thanks by Fr. Babu.
